Venue	SPIOM Seminar Hall
Name of Resource Persons	Mr. Prashant Salave Managing Director Sai Prerana Co-operative Society
Name of Cell	SPIOM Skills Enhancement Cell
Name of Coordinator	Prof. Abhale Ganesh Arun

Introduction:

Problem Solving Skills Workshop is an intense One day learning experience that provides participants with useful tools and tactics for working with real world problems. Intended for professionals, managers and executives whose duties include creative problem solving, analysis and design in a variety of disciplines, this workshop is a catalyst for better idea generation, while providing analytical tools for problem definition and evaluation. The workshop is highly interactive, combining demonstrations and brief discussions of key learning points with individual and group “hands on” problem solving exercises to reinforce learning and build confidence.

Objectives of Workshop:

At the completion of the training, participants will be able to:

- More clearly define problems
- Generate a wider variety of quality alternatives
- Better evaluate alternatives
- More effectively facilitate team problem solving
- Face problems with increased confidence and an array of useful tools and tactics

WORKSHOP SESSION

Resume Writing

A resume is a summary of background, skills and qualifications, which is sent to employers for review. Consider it to be your personal marketing brochure with the goal of gaining the employer's attention and to giving them the information they need to bring you to the next step in the hiring process, an interview. A well-written and formatted resume tells the employer a lot about your professionalism, and improves the chances for receiving an interview. In first segment the resource persons will give tips regarding resume written drafting.

Interview Skills

Job interviews are arguably some of the most important meetings you will ever have in your life. The outcome of an interview can greatly affect your career trajectory, whether it means you continue along your planned path or start a new one to find a more fulfilling occupation. In second segment the resource person will presenting interview skills to the candidate.

Employability skills for first Job

Employability skills are the skills and attitudes that enable employees to get along with their colleagues, to make critical decisions, solve problems, develop respect and ultimately become strong ambassadors for the organization. Employability or soft skills are the foundation of your career building blocks and they are frequently not covered in schools & colleges levels. In last segment of workshop will cover the employability skills for first Job.

Introduction:

Social media is now an important part of many people's lives. In fact, a study suggests that half of the children who are aged between eight and seventeen years have social networking profiles like Facebook, Instagram etc. Not only the young people, but people of all ages, and all profession are using social networking sites as a means of communication.

Social media, as per recently observed fact, is playing an important part of any platform. Social media plays a dominant role in our day to day life. It creates a wide range of impact on people when it is shared on social media.

Social media etiquette refers to the guidelines that companies and individuals use to preserve their reputation online. As social media channels have evolved to become one of the primary ways people communicate in the modern world on a daily basis, typical social rules are finding their way into digital environments. Just as social etiquette dictates how people behave around others in the real world, social media etiquette revolves around online guidelines.

Introduction:

It's not uncommon for email to be your primary method of communicating with your employee, Colleague, customers and other businesses. Yet, there are many problems that can accompany this written form of communication. As it turns out, there are many people that are unaware of how to effectively write an email to have the effects they desire.

"Writing an email can seem like an extremely simple task but when you consider the repercussions of getting it wrong, it can suddenly seem rather daunting. Miscommunication, sending the wrong impression of your business to a potential customer and even sounding offensive are all real risks of what can happen if you don't take the time to write your content properly and thoroughly check it."

Whether you're writing to your customers, partnership businesses, trying to create partnerships or attempting to generate leads, this program list of nine tips and tools that students make the most of your emails drafting effectively

Programme report on
Public Speaking Skills

Academic Year-2016-17	
Name of Programme	Public speaking skills
Day and Date	Mon 13 th February 2017
Venue	SPIOM Seminar Hall
Name of Resource Persons	Prof. Vinodkumar Pathade Assistant Professor Akole Taluka Education Society's Technical Campus Akole.
Name of Cell	SPIOM Skills Enhancement Cell
Name of Coordinator	Prof. Abhale Ganesh Arun

Introduction:

Candidates with strong public speaking skills are in demand for the many occupations that require the ability to speak to a group. Dynamic and well-prepared speakers are highly valued by employers, and having this skill set can even help land you leadership positions and important roles.

Learn more about public speaking, why it's important, and how to improve your public speaking skills. Public speaking is a soft skill that requires excellent communication skills, enthusiasm, and the ability to engage with an audience. Soft skills are interpersonal skills that are less technical and more about how you interact with others.

Public speakers make presentations to a group. Presentations could range from speaking to a small number of employees to presenting to a large audience at a national conference or event. The same skill set and ability to be comfortable speaking in public are required regardless of the size of the group.

Introduction:

Yoga is a healthy way of life, originated in India. Now it is believed to be a form of science accepted all over the world. The western culture also is accepting it as a healthy form of scientific exercise. Although the origin of yoga is obscure, it has a long tradition. In course of time, various schools of yoga developed. The major schools of yoga are Jnana yoga, Bhakti yoga, Karma yoga and Raja yoga. These schools of yoga advocate particular type of methodology which includes a variety of systematised practices of yoga depending on their particular approach. However, all these are leading to the common goal of selfrealisation and integration of body and mind.

Objectives of Programme:

- To know specific exercises, called poses, combined with specific breathing techniques and meditation principles are the building blocks of a yoga class.
- To understand the benefits of a regular yoga practices.
- To understand various poses for a complete yoga workout.

Introduction:

It's time to roll out your yoga mat and discover the combination of physical and mental exercises that for thousands of years have hooked yoga practitioners around the globe. The beauty of yoga is that you don't have to be a yogi or yogini to reap the benefits. Whether you are young or old, overweight or fit, yoga has the power to calm the mind and strengthen the body. Don't be intimidated by yoga terminology, fancy yoga studios and complicated poses. Yoga is for everyone.

Objectives of Programme:

- To know specific exercises, called poses, combined with specific breathing techniques and meditation principles are the building blocks of a yoga class.
- To understand the benefits of a regular yoga practices.
- To understand various poses for a complete yoga workout.

Programme report on
Importance of the yoga in a life

Academic Year-2017-18	
Name of Programme	Importance of the Yoga in a Life
Day and Date	Thu 21 st June 2017
Venue	SPIOM Seminar Hall
Name of Resource Persons	Dr. G. U. Kharat (Certified Yoga Teacher)
Name of Cell	SPIOM Skills Enhancement Cell
Name of Coordinator	Prof. Abhale Ganesh Arun

Introduction:

Yoga is not a religion; it is a way of living that aims towards a healthy mind in a healthy body. Man is a physical, mental and spiritual being; yoga helps promote a balanced development of all the three. Other forms of physical exercises, like aerobics, assure only physical well-being. They have little to do with the development of the spiritual or astral body.

The art of practicing yoga helps in controlling an individual's mind, body and soul. It brings together physical and mental disciplines to achieve a peaceful body and mind; it helps manage stress and anxiety and keeps you relaxing. It also helps in increasing flexibility, muscle strength and body tone. It improves respiration, energy and vitality. Practicing yoga might seem like just stretching, but it can do much more for your body from the way you feel, look and move.

Objectives of Programme:

- To Celebrate International yoga Day in Institute
- To inform the importance of Yoga to students.
- To demonstrate the practical session on yoga to students.

Introduction:

Yoga is the journey of the self, through the self, to the self.” — The Bhagavad Gita. ... There's no secret in the longest-held “ohm.” The secret of yoga is in the things you teach yourself through repeated visits to your mat. It's the practice of uncovering the wisdom of your soul. Yoga, meditation and breathing techniques are some of the most effective tools to fight against the physical and mental distress brought by the pandemic.

Objectives of Programme:

- To create awareness among the students about yoga and giving importance of yoga for Mental and Physical health
- To demonstrate the practical session on yoga to students

Introduction:

Data Tables—more commonly known today as spread sheets—were invented to organize arrays of information that our brains can't recall. Spread sheets help us sort and label in a way that makes sense, so we can reference it and perform calculations later.

Google Sheets is a spread sheet app on steroids. It looks and functions much like any other spread sheet tool, but because it's an online app, it offers much more than most spread sheet tools. Here are some of the things that make it so much better:

- It's a web-based spread sheet that you can use anywhere—no more forgetting your spread sheet files at home.
- It works from any device, with mobile apps for iOS and Android along with its web-based core app.
- Google Sheets is free, and it's bundled with Google Drive, Docs, and Slides to share files, documents, and presentations online.
- It includes almost all of the same spread sheet functions—if you know how to use Excel, you'll feel at home in Google Sheets.
- You can download add-ons, create your own, and write custom code.
- It's online, so you can gather data with your spread sheet automatically and do almost anything you want, even when your spread sheet isn't open.

Data Dashboards Using Excel and MS Word

Academic Year-2017-18	
Name of Programme	Data Dashboards Using Excel and MS Word
Day and Date	Mon 9 th October 2017
Venue	Computer Lab
Name of Resource Persons	Mr. Swapnil Madhukar Waman Software Developer Triyama Software Private Limited Pune
Name of Coordinator	Prof. Abhale Ganesh Arun

Introduction:

The simplest way to think of a dashboard is as a visual representation of data. Raw data can be hard to look at. Sure, the need-to-know digits are there. But, all of those rows and columns are often impossible to process and understand. This is where dashboards come into play. They turn data into information (yes, those are two different things!) by creating different charts, tables, and other visual elements that give you a high-level overview of that data. A dashboard simplifies that otherwise complex data you have in your spreadsheet and transforms it into something visual that's far easier for you to grasp and, thus, utilize.

The Outline or Content of the Program:

- Introduction to Dashboards
- Automation Process
- Demonstration
- Design a dashboard
- Create Word Template with Bookmarks
- Organize the data in Excel

Introduction:

Outlook organizes your emails, calendars, contacts, tasks, and to-do lists, all in one place. That organization starts with your email account. From there you can start working with emails, turning them into tasks or appointments, and storing information about the people you interact with in your contacts so that you never have to remember an email address or a phone number. Let's take a quick walk-through of some basic tasks.

This programme is provided all about Basics of Microsoft Outlook

The Outline of the Program:

- What is Microsoft Outlook?
- Ribbon option
- Mini toolbar
- Replay forward and Send Message
- Navigation
- Email Signature
- To do Bar
